Biographical Information

Dr. Kyle has a broad range of experience in management and organizational consulting, focused primarily in executive development and coaching to CEO's. In addition to his work in mature organizations, he has a specialty in providing expert consulting for start-up companies and merger and acquisition integrations. His client base includes both public and private sectors, as well as profit and non-profit organizations. His international consulting includes work in Asia, Africa, the Middle East and the former Soviet Union.

Dr. Kyle was a founder of Skopos Corporation, a human resources consulting and software company; and also was a founder and President of Ontara Corporation, a human systems performance company specializing in project management training and consulting. He has held positions as a manager, director, and executive in a variety of organizational settings. Dr. Kyle was a professor for 10 years at San Jose State University, University of Phoenix, Foothill College, and Findhorn Foundation in Scotland. He is the past Academic Director for the Masters of Arts in Organizational Leadership at the Graduate Institute in Connecticut. He received his BA in Communications and Public Policy from UC Berkeley, an MA in Communication Theory from San Jose State University and a PhD in Organizational Psychology from Columbia Pacific University.

Dr. Kyle is past Chairman of the Board of: the Foundation for Russian/American Economic Cooperation, which fosters economic development between medium sized and small businesses in the two countries; Reinking International, a holding company for a start-up chain of multidisciplinary pain clinics and compound pharmacies; and, NCTV, a community access television channel.

Dr. Kyle had responsibility for developing and producing the PBS series, "Voyage: Challenge and Change in Career Life Development." Dr. Kyle lectures on a wide range of topics and has published *Human Robots & Holy Mechanics: Reclaiming our Souls in a Machine World* (1993 Swan•Raven & Company), and his most recent book, *The Four Powers of Leadership* (1999 HCI). He is researching and writing a new book with Gary Heil titled *Leaders Transforming Organizations*.
